- Conveniently scheduled courses and lectures
- Affordable pricing for stellar academic experiences
- Access to FREE lecture series and events

“ “ What Osher Members Are Saying

“Barry and I love remote learning. Connections with other participants seem more intimate, even if we chose to just listen and not participate. Learning the Zoom technology is very easy, very user-friendly.”

– Glennie Feinsmith, Osher Member

“For us, personally, there are so many reasons why we enjoy the experience, part of it is the community of learners, part of it is that we learn something new from every class, and part of it is that there are things we never imagined we would be interested in or enjoy that we’ve come to love from the classes that we’ve taken.”

– Paul J. Gomez, Osher Member

“There are a lot of people who are or want to stay really mentally active and that’s amazing because I’ve read if you don’t stimulate your mind, it’s going to degrade – so you cannot put a value on that benefit.”

– Barry Schoenfeld,
Osher Instructor

Director's Message

Dear UCR Osher Members and friends of Osher,

Welcome to Osher at UCR's spring 2024 term. We've had our busiest season since March 2020 this past winter, and it has been an absolute joy to get to know you all more and watch you engage with one another. As always, I want to hear your feedback. Now, more than ever, is the time to reach out and share your ideas!

Welcome back to continuing Osher members, and greetings to new (and prospective) members! We are adults with wide-ranging interests in history, literature, the natural and social sciences, fine arts and special events. This past fall and winter have been very exciting –we are seeing increased enrollments on both campuses and on Zoom. There is truly something for everyone at Osher at UCR. Please help us continue to offer quality educational programming for mature adults by renewing your membership, signing up for courses, attending our free events, and donating to Osher. To learn about upcoming events, please make sure you are on our mailing list. Not sure? Email olli@ucr.edu

Inside you will find a listing of the Spring 2024 courses and events to round out this exciting membership year. Additional events will also be included in our weekly newsletter, so make sure to sign up! As Alexander Graham Bell said, "There cannot be mental atrophy in any person who continues to observe, to remember what he observes, and to seek answers for his unceasing hows and whys about things." I look forward to this upcoming term with you all and towards working together to make this program even more successful as we go forward.

Johnna Norris
Director, UCR Osher Lifelong Learning Institute

WASP EVOLUTION TRICKS SCIENTISTS

Tuesday, May 7, 2024
3:00 - 4:30 p.m. with Reception to follow
In-person at University Extension Building 1101
Livestreamed via Zoom

Featuring

Brian A. Federici, PhD
UC Riverside Distinguished Professor of the
Graduate Division
Department of Entomology and
Institute for Integrative Genome Biology

Description

Professor Federici studies viruses, bacteria, and fungi that attack insects, with research funded during his career by the National Institutes of Health (NIH) and National Science Foundation (NSF). Federici's focus has been the biology of natural pathogens, or those genetically engineered, as replacements for chemical insecticides. During the 1970's, Federici became interested in particles female parasitic wasps inject with eggs into caterpillars that help wasp larvae avoid innate immunity and kill their hosts during development. For five decades the particles were considered virions, the infectious agents for viruses known as polydnaviruses (PDVs). In papers published in 1991, 2003, and 2010, he argued the particles were not virions, but rather immunosuppressive organelles that evolved from virions. These papers were ignored until 2023 when prominent virologists at NIH also concluded PDV virions were not virions, thus PDVs are not viruses. Federici's Dickson Lecture will focus on this case of scientific tribalism, showing how science can err when research leaders knowingly misinterpret data that contradict their long-held ideas.

Why *Teach* an Osher Course?

“Teaching ‘All Science Considered’ encourages me to think more deeply about the impact our topics have on our society. Class material should answer questions such as: “Why should participants be interested in a particular topic? And how it might affect their lives or the lives of their family?” I receive great enjoyment and satisfaction from both the preparation and the in-class interactions.”

— Michael Luther,
UCR Osher instructor
since 2016

Share Your Expertise

The Osher program attracts current and retired faculty from University of California, Riverside, retired faculty from local and national colleges, and distinguished community leaders and other experts who enjoy sharing their knowledge and joy of teaching with our members. Classes are offered in Riverside at the UCR Extension University Village (EUV) and in the Coachella Valley at UCR Palm Desert Center.

WANTED: mind-expanding ideas and discussions on a variety of topics.

Learning Formats Available

Lectures: Tuesday lectures series on timely and engaging topics. (Riverside location only at this time)

Courses: Multi-session, academic courses in a wide array of topics and delivery modes from in-person classroom instruction to remote delivered interactive instruction and demonstrations.

Field Trips and Study Tours: On site exploring and learning about cultural, historical and architectural events locally and internationally.

Special Events: Includes campus department lectures, and fun and entertaining events open to members and the general public.

Lunch Bunch: Another way for members to engage in cultural experiences through food while enjoying a meal together.

Workshops: Range from successful aging, financial wellness and creative activities.

If you enjoy teaching and sharing your knowledge, visit our website at palmdesert.ucr.edu/welcome-ucr-osher to submit a proposal. Proposals are accepted for the Winter, winter, and spring quarters. For the Winter quarter, submit in April; for winter, submit in August; and for spring, submit in November.

What are Blue Zones?

Tuesday, April 16
1 - 3 pm | UCR Extension

Blue Zones are communities that have been identified as having populations that live measurably longer, happier lives with lower rates of chronic diseases and a higher quality of life than the average. The city of Riverside was deemed a strong candidate for a Blue Zone certification process. Our speaker will provide the most updated information on Riverside's participation.

Leading the program is CEO Joe Grumbine, who has more than 30 years of experience in therapeutic horticulture, the release states. Grumbine has developed workshops that include information on herbs, flowers, fruits, vegetables and composting.

Fragrance 101

Wednesday May 8,
10 - Noon | UCR Palm Desert Campus

Explore the history of fragrance and gain a better understanding of how fragrances are created. Smell various natural and synthetic fragrance raw materials. Dive deeper in to the scent of Rose. Discuss accords and participate in a live creation of a green tea accord.

Lisa Gomez is a trained Perfumer who recently relocated to Palm Springs. And she wants to share the joy of fragrance with all! Lisa spent several years working in the fragrance/cosmetics industry, receiving extensive training during this time. Her fragrance education includes the Grasse Institute of Perfumery and the Institute for Art & Olfaction. Lisa is also a trained Master Gardener, specializing in fragrant gardens.

Citizen Leadership in a Time of Confusion

Tuesday, May 21

As dysfunction continues to strain the fabric of American society, concerns about the future of democracy have left many bereft of direction. What is the role of the citizen?

How can citizens contribute to the solution instead of finding themselves drawn deeper into the problems that threaten the rule of law and political efficacy under the Constitution?

Beth Hill-Skinner, M.A. has degrees in Theology International Diplomacy with specialization in transnational terrorism, is an adjunct faculty member at Riverside Community College, as well as a noted author and professional speaker. UCR instructor since 2007.
